

exceptional3D™

4K GLASSES-FREE 3D VIDEO WALL

Available Tiling Configurations: 2x1 • 2x2 • 2x3 • 3x3

THE 4K VIDEO WALL BY EXCEPTIONAL 3D features a brilliant, bright and cutting-edge 4K experience entirely in GLASSES-FREE 3D. This uniquely designed 3D Video Wall is configurable in landscape format and offers tiling options at: 2x1, 2x2, 2x3 and 3x3. The 3D Video Wall is built with 58" 4K displays and each panel is comprised of 16 views which offers fantastic freedom during viewer movement, ideal for large spaces.

The ultra-thin bezel design creates a sleek-looking trim and virtually seamless breaks between the panels which delivers an extremely impressive 'WOW-factor' sure to capture & engage your audience. Maintaining the Exceptional 3D philosophy for 'Keeping It Simple', the 3D Video Wall comes practically plug-and-play ready. Standard VESA mounting, embedded media players and pre-installed software designed to distribute content across any available 3D Video Wall configuration makes the setup and launch an effortless process.

This 3D Video Wall visualization solution truly is first of its kind!
